ENERGY SAVING

Ventilate your room during the heating period by airing the room in bursts (open the window fully twice a day for a maximum of 5 minutes) and always close the windows when you leave the room - even in summer. This will help you to save energy in winter and keep the room cool in summer with the blinds down.

By the way: since 2015, we have been heating our buildings using district heating from biomass from the energy centre in Ibach. The preparation of hot water is supported by solar panels on our roof.

FIRE - WHAT TO DO ?!

1. Keep calm, close doors and windows.
2. Raise the alarm (call the fire brigade on 118) or use the red alarm button in the stairwell.
3. If possible, alert other guests without endangering yourself.
4. If possible, extinguish the fire without endangering yourself. The fire extinguishing points are located on the floor.
5. If possible, leave the building and go to the assembly point. (See B: Assembly point in emergencies) If this is not possible, stay in the room, make yourself heard at the closed window and wait for instructions from the fire brigade.

FUN AND GAMES

The staff in the restaurant are happy to hand out card games. Other board games can be found in the cupboard by the computer behind the break room.

There is a television in the gallery above the break room.

SAVING ELECTRICAL POWER

Please switch off the lights when you leave your room.

By the way: We obtain our electricity from our photovoltaic system on the roof and from 100% hydropower from nature-made basic-certified power plants of the Altdorf electricity plant. The lighting fixtures are all equipped with energy-saving bulbs or LEDs. Most of the lights in the public areas are regulated by motion detectors and/or minute-cylinder controls.

SAVING WATER

You can help us to save water by informing reception if you notice a dripping tap or a leaking toilet flush.

By the way: Water from the Stooswald spring in Morschach flows from the taps in the Mattli Antoniushaus.

SMOKING

Thank you for respecting the smoking ban throughout the house and refraining from smoking, especially in the guest rooms and bathrooms. There is a covered smoking area with a bar table and ashtray at the side entrance. For safety reasons, it is also forbidden to light candles or incense in the rooms.

The current timetables for bus, boat, cable car and in winter for the ski bus can be found on the notice board next to reception.

WASTE

Please use the black wall waste bin in the bathroom for your hygiene waste. We will dispose of the waste from the paper basket in the room separately for you.

By the way: Our set-up and food waste is fed into the biogas plant of the energy centre in Ibach, where we get our district heating from.

WELLNESS & WELLBEING

Wellness here means enjoying the fantastic view on the large terrace above the panorama room and letting the wind caress your face... Relax in a deckchair or linger on a bench with a view... Listen to the twittering of birds and sheep bells... Take a dip in the fountain in the courtyard... Watch lizards, butterflies, bumblebees and dragonflies... And, the chapel is accessible at any time to pause for a moment.

The house is surrounded by a "path of the senses" based on the ideas of Hugo Kükelhaus. You can obtain a detailed brochure on this adventure trail, which promotes perception, from reception.

There are well-maintained, easy walking paths directly from the Mattli Antoniushaus: The Waldparkweg leads along the ridge, with views of Lake Lucerne, into the village. The chapel trail leads to the five sacred spaces in Morschach. A short hike to "our" Douglas fir in the Ingenbohlen forest. A challenging mountain hiking trail up to the summit of the Fronalpstock.

The public adventure pool of the Swiss Holiday Park is in the immediate vicinity and also offers a wide range of indoor sports, games and fitness facilities.
